¹ **Polystyrene insulation:** Refers to insulation for improved energy efficiency and sound reduction.

² **R-value:** R-value is a measure of thermal efficiency. The higher the R-value the greater the insulating properties of the door. Overhead Door Corporation uses a calculated door section R-value for our insulated doors.

³ **Heavy-duty steel:** A thicker, more durable and dent-resistant option, designed to withstand additional knocks and bumps from outdoor activity.

⁴ **Backing:** Vinyl – For a clean, more finished look and added sound absorption
Steel – Interior-side steel backing for strength and finished appearance

The Genuine. The Original.

Since 1921, Overhead Door Corporation has not only raised the standards of excellence for the industry—we've created them. Overhead Door created the first upward-acting door in 1921 and the first electric garage door opener in 1926.

Today, our network of over 400 Overhead Door Distributors are still leading the way with innovative solutions and unmatched installation, service and support. So look for the Red Ribbon. It's your guarantee that you're getting the genuine, the original Overhead Door.
